BGA | FINALIST

G2 Outdoor Living, Inc.

G2 Outdoor Living, Inc. CEO Garrett Hergert began his landscape career at age 5 – growing his own vegetables in the family garden.

25 years later, Hergert's business specializes in outdoor spaces, light construction and water features. Going beyond typical landscaping activities, G2 also designs waterfalls, outdoor kitchens and interpretive projects which tell stories.

"By performing most of our work in-house," Hergert said, "We can take a concept to final completion."

Last year, this quality was recognized by the Washington Association of Landscape Professionals, with G2 earning seven Grand awards as well as a 2009 Building Excellence Award from BIA of Clark County.
